## REMARKS

By this amendment claims 1-20 have been cancelled and claims 21-39 have been added. Consequently, claims 21-39 are pending in the present application. Reconsideration of the claims in view of the above amendment and following remarks is respectfully requested.

### Objections to the Drawings

Applicant submits herewith replacement formal drawings believed to overcome the Examiner's objections. The solid black shading has been removed and the cross-sections have been shown with what is believed to be proper cross-hatching.

### Objection to Improper Multiple Dependent Claims

Applicant has cancelled objected to claims 5-20. New claims 21-39 are believed not to have improper multiple dependencies. It is believed that the Examiner's objection in this regard has been overcome.

### Rejections Based on Prior Art

Examiner has rejected claims 1-4 under 35 USC 102(b) in view of Saito (US Pat. No. 6,340,299). In response, claims 1-4 have been cancelled. New independent claims 21 and 32 more precisely define the claimed invention and are believed patentable over Saito.
